FALL AND WINTER GOODS. GAINES & PAGE.

PROSPECTUS NATIVE AMERICAN

PROTESTANT ADVOCATE.

It is proposed to publish in the City of Jackson, a semimonthly periodical under the above title, in pamphlet form, each number containing about thirty-two pages. The struggle between Native Americanism and the dominion of Foreigners, between Popery and Protestantism, is intis infancy. It must be continued until foreign influence and Popery shall have crushed Democracy and the freedom of conscience, or Democracy and the right to worship God according to the dictates of the conscience of each man and woman shall be finally secured. Luther and his associates went through a fearful struggle to achieve the reformation. We are now engaged in the same struggle, to continue and confirm to man, political and religious liberty. We have been as men in fancied security, sleeping around a volcano, the lava. silently rising and about to overwhelm them before they are conscious of the impending danger. Securely reposing in the enjoyment of our political and religious freedom, popery and foreigners have silently gained strength, until those who have investigated the subject see that the danger must be averted, now, or never. A few years more of inactivity and all is lost. We wish to arouse the people from this dangerous apathy, by laying before them well authenticated facts, whereby cach individual can judge for himself. We propose to avoid everything but calm, decorous and fair reasoning from true premises, and to place before the community the materials, with impartiality:—facts as they are and have been, with the evidences of their authenticity.

The periodical will be edited gratuitously by a committee composed alike of Democrats and Whigs, and of christians of each sect in our country, that the public may have assurance, that it is fairly and impartially conducted. The price, Two Dollars per annum, payable on the delivery of the first number, which will lissue so soon as one thousand subscribers are obtained, and the names forwarded. If a surplus fund remain, it will be approated to distribute gratu PROTESTANT ADVOCATE.

STRANGE DEVELOPMENT.
SCIENTIFIC Men are daily bringing to light new inventions, and the march of progress is onward; persons Bald, or becoming so, will be pleased to learn that Science and long research combined, have brought before the public the greatest WONDER OF THE AGE, in the article of EMERSON'S AMERICAN HAIR RESTORATIVE, a sure cure for Baldness, and to prevent Hair from falling. CONSUMPTION. Among the numerous discoveries Science has made in this generation to facilitate the business of life-increase ts enjoyment, and even prolong the term of human exstence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medicine or ombination of medicines yet known, can so surely conrol and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on, to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any propertion of the cures affected by its use, but we would present the following:--and refer further enquiry to my American Almanae, which the agents below named, will always be pleased to furnish free, wherein

J. C. Ayer. Dear Sir,—My little son, four years old
has just recovered from a severe attack of malignant
Scarlet Fever, his throat was rotten, and every person
that visited him, pronounced him a dead child. Having
used your Cherry Perforal. In California, in the winter
of 1850, for a severe attack of Bronchitis, with entire success, I was induced to try it on my little boy. I gave
him a tea-spoon-full every three hours, commencing in
the morning, and by ten o'clock at night. I found a decided change for the better, and after three days use, he
was able to eat or drink without pain.

Its use in the above named disease will save many a
child from a premature grave, and relieve the auxiety of
many a fond parent. For all affections of the Throat and
Lungs, I believe it the best medicine extant. A feeling
of the deepest gratitude, prompts me in addressing you
these lines,—but for your important discovery, my little
boy would now have been in another world.

I am yours, with great respect,

Rock Hill, (Summerset Co...) N. J., July 21, 1852.

Dr. J. C. Aver.,—Since your medicine has been known here, it has a greater demand than any other cough remedy we have ever sold. It is spoken of in terms of unmeasured praise by those who have used it, and I know of some cases where the best they can say of it, is not too much for the good it has done. Itake pleasure in selling it, because I know that I am giving my customers the worth of their money, and I feel gratified in seeing the benefit it confers.

Please send me a further supply, and believe me Yours, with respect, JOHN C. WHITLOCK.
P. S. Almost any number of certificates can be sent you, if you wish it.

Winsor, C. W., June 26, 1852.

J. C. Ayer. Sir: This may certify that I have used your Cherry Pectoral for upwards of one year, and it is my sincere belief that I should have been in my grave ere this time if I had not. It has cured me of a dangerous affection of the lungs, and I do not overstate my convictions when I tell you it is a priceless remedy.

Mr. SMEDLEY offered the following joint Resolved by the General Assembly of the Com-convealth of Kentucky, That in regard to the ower which Congress had to pass the Missouri ompromise, or to establish a geographical line, y which slavery was inhibited in the Territories orth of that line, we indorse and adopt the fol-wing extract from Gov. Morehead's Message:

'The Federal Government, in its original organization, conformed itself most wisely to the then condition of the people and the property it was intended to protect. Slavery then existed in most of the States. The constitution did not pretend to make any change whatever in the re-lation of master and slave. The property in slaves, such as it was, pre-existed, and the constitution recognized it without limitation and extended to the owner its unqualified protection. created no property, but recognized whatever was property in the States as such, and left if in the condition in which it was found. When i speaks of property, whatever was made so by any of the States, was what was intended. It did not undertake to define what was or was not

property.
The Federal Government being one of limited powers, cannot impart to or take from any thing its attribute of property. If it cannot es tablish slavery in a Territory, it cannot destroy it. Whatever is property in any one of the States, if carried into a Territory cannot lose ts character of property by the action of the

general government.
'I am deeply and profoundly impressed with the conviction, that the only safety to the Union, is the firm establishment of the doctrine that the Federal Government should abstain unconditionally from all hostile action upon the subect of slavery. It is a government for the slaveholding States as well as the free, and it has no right to throw even its moral influence against the tenure of property recognized as such by any of its constituent parts. It would be a gross prostitution of its powers and a departure from the objects of its organization to do so. As a common government for all the States, it never was intended by its framers, that it should discriminate between the property of one State or one section and another. Equality is the law of

Mr. E. O. BROWN offered the following

Resolved, That obedience to the Constitution of ne United States, and all laws passed by Con ress in pursuance thereof, is sacredly obligatory pon the citizens of the States, and that the Su-reme Court of the United States is the proper tribunal in the last resort, to determine the con-stitutional enactments of Congress; and that we utterly repudiate the higher-law doctrines of the North, as well as the seeeding and nullifying doctrines of the South and North, as exhibited first by the South, in the attempt by South Carolina to evade the tariff laws, and more recently by Massachusetts in her effort, by State authority, to lowing vote;

FINE HOGS. To my excellent lot of Woburn Irish White Burkshire Sows, I have lately introduced a Boar of the same crosses, which took premiums in Paris and Louisville at the Fairs in 1854. I have also a fine young Sow by a premium Irish Boar, out of an imported Sow; also four Sows and a young Boar out of the Sow which sold for Sows and a young Boar out of the Sows and a young Boar out of the Sow which sold for Sows and a young Boar out of the

"Improved Kentucky Sheep."

This is a new variety, produced by judicious crossing of Bucks of all the best imported varieties, originally or selected native ewes.

Experience, especially during the past season, has proven they are peculiarly adapted to the climate, soil, food and purposes of the West and South.

They are large, healthy, thrifty and prollife, and yield heavy fleeces of medium wool. Their mutton is very superior. Sixteen wethers of this breed were sold by me at \$210.00. I have a few young Bucks and Ewes for sale.

Gentlemen are invited to call at all times and exam ine the above slock, which will be sold on the most rea ine the above stock, which was best as somable terms.

If Porders from a distance will be filled with the utmost care, and satisfaction will be insured.

If Piscek will be shipped well haltered or boxed, and supplied with appropriate food for the trip. Though I am constantly sending them to the South and West, they rarely meet with any accident.

We will suppose this tax imposed; may it not have the effect of driving capital from the State, a thing always to be avoided. Already other States | Presbyterian Church in Louisville for the Pastoral offer greater inducements for the use of cash capital than Kentucky does. The whole tract is watered by several cold, never falling springs, and the stream of Dry Run creek passing directly through the center: besides there are several excellent ponds. All the advantages together makes it one of the most desirable tracts of land in Kentucky.

Also, at the same time, will be sold all the real and personal estate of said Trabue, contained and referred to Archibald King and others, and W. D. Reed and others, of record in the office of the Franklin County Court, which has not already been disposed of.

JNO. T. LUCKETT. KENTUCKY

It is well known that there is great economy in crushing or grinding the kernels of all grain before feeding it to stock, and that there is much nutriment in the cobwhen properly broken or ground. And the only reason that mills arranged to produce these desired results have not been more generally introduced among planters and farmers, has been their complex arrangement and high cost.

In the Kentucky Corn and Cob Mill, of which the above is an accurate engraving, we claim to have produced a machine at once efficient, substantial and cheap, while its arrangement is so simple that the most ordinary hand can adjust and operate it. This machine, unlike any other, is regulated by means of a single set screw, which is easily moved by hand, and is applied directly ander the centre of the mill.

Any one using these Mills will find a clear saving of one grarrant these Mills to give entire satisfaction. Purchasers may use them for thirty days and if not satisfied, can return them and get their money.

They will grind Corn and Cob as fine as desired, at the ollowing rate per hour, with one horse:

STRAW-CUTTER QUESTION.

MESSRS. J. B. FORD & CO., of the city of New Albany, in the State of Indiana, claiming to be the owners of Sandford's paten-right to manufacture what is known as Sandford's Straw-Cutter, have sold the right to manufacture the same to various persons for certain prescribed territories, and they have warned the public against purchasing the Straw-Cutter manufactured by us. We have been for a long time satisfied that the so-called-Sanford patent is a fraud, and that it is void, being a palpable piracy and infringement of the patent-right of John Boynton, which bears date 25th day of September, 1838, and has expired. We have been satisfied that the machine denominated Sanford's perfect Straw-Cutter is constructed not according to the specifications contained in Sandford's patent, but according to the specifications contained in Boynton's and all this has recently been decided in the U. S. Circuit Court for the Middle district of Tennessee. Some months since, we sold to B. S. Weller, of Nashville, several of the so-called Sanford Straw-Cutters, which were taken by him to the State of Tennessee and there sold. Ch's M. Alexander claimed to be the assignee of Sanford's patent for the State of Tennessee trom J. B. Ford & Co., and sued Weller on infringement. Weller defended and insisted that Sanford's patent is void and a piracy on Boynton's, and, as we before said, court and jury so decided.

We are prepared, as heretofore, to furnish all orders or the Straw-Cutters manufactured by us, and to defend STRAW-CUTTER QUESTION. nd jury so decided.

We are prepared, as heretofore, to furnish all orders
